

Modular Panel Designs

For cost-effective exhibition solutions, our modular components can be used to create all types of stand, from a simple display booths, to exhibition stands that fit your design and functional requirements. Modular panels can be greatly enhanced with the use of graphics to deliver the promotional message.*

The following samples illustrate what can be achieved at different budget levels.

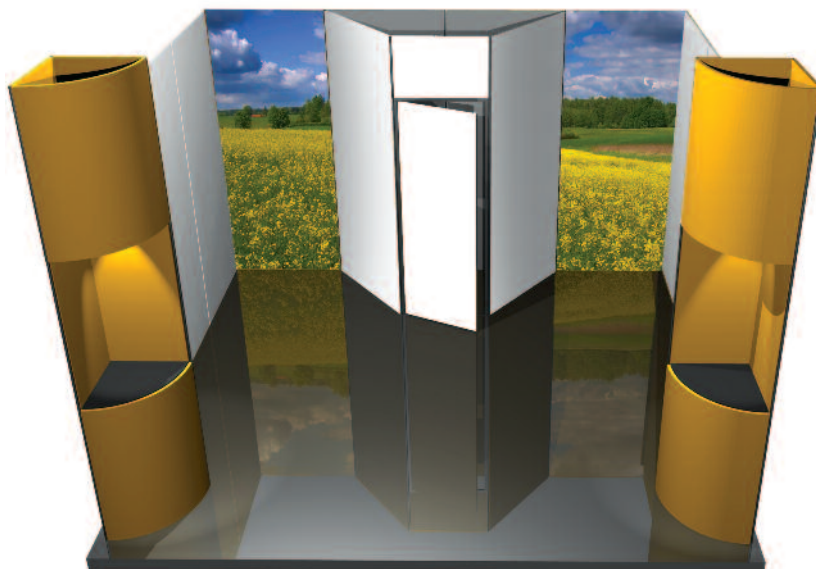

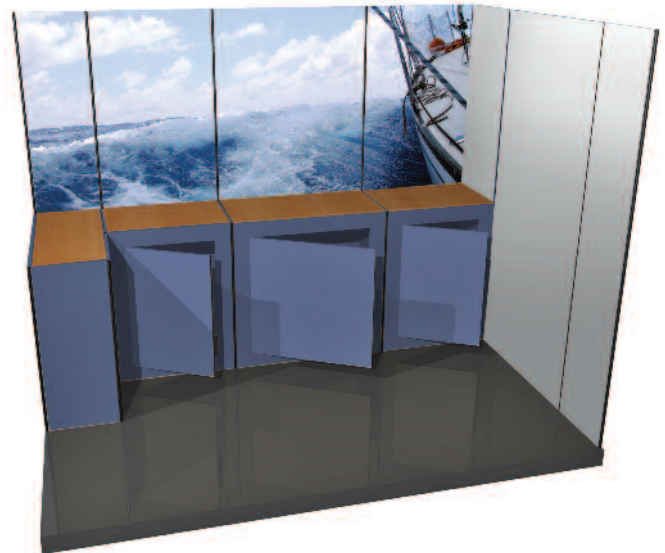

Sample 1

Simple display booth with computer demonstration area. Sample illustrates 2500 x 2500mm booth area.

Sample 2

Medium sized booth space designed for product promotion and storage. Sample illustrates 3000 x 2000mm booth area.

Sample 3

Exhibition space with display areas and storage. Sample illustrates 4000 x 3500mm booth area.

* Graphics illustrated are not included.
